EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

On page 1 of the specification, the first paragraph after the title has been deleted and replaced by the following paragraph:

This is a Continuation-in-Part of application USSN 09/180,481, now US Patent 6,551,827, the contents of which are herein incorporated by reference.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: claims 19-21 are drawn to product by process claims wherein the process of making the claimed product causes a structural difference between the product as claimed and the products of the prior art. The prior art does not teach or fairly suggest of modifying cassava plants to obtain a starch which has at least 95 wt% of amylopectin. Moreover, applicants show a side by side comparison of the amylopectin starch from cassava and amylopectin starch from other sources, such as potato and maize starch. It is noted that the mere presence in an otherwise allowable article of manufacture

Art Unit: 1623

claim of a process limitation does not render it unpatentable. *In re Garnero, (CCPA 1969) 412 F2d 276, 162 USPQ 221.*

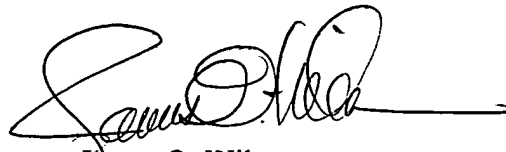

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Traviss C McIntosh whose telephone number is 571-272-0657. The examiner can normally be reached on M-F 9:30-6:00.
